Impeach

The framers of our constitution
Fresh on the heels of revolution
Well they must have seen the writing on the wall
They secured for us an open door
In article two and section four
To commence a presidential overhaul

Now we've run this play a few times before
With presidents and judges and governors
And now we see our country's in distress

With thousands dyin' while bushco's lyin'
Illegal torture illegal spyin'
This is so much bigger
Than the stain on an intern's dress

I M P E A C H
Seven little letters gonna get us straight
I M P E A C H
How much more are we gonna take
I M P E A C H
Time to clean the white house out

So make yourself a resolution
Protect and defend our constitution
It's the patriotic and the democratic way
Let's impeach old george and all his cronies
Load up all his jesters and his one trick ponies
Put em all in a FEMA trailer
Gulf coast USA

I M P E A C H
Seven little letters gonna set you straight
I M P E A C H
How much more are we gonna take
I M P E A C H
Time to clean the white house out
