

Written and Performed  
By Tom Chelston

"VFP"

Flag draped boxes  
As far as you can see  
If this is such a noble cause  
Why don't we ever see them on the TV screen

All of king george's horses  
Are killin' all of king george's Men  
The whitehouse has got their shades pulled down  
And Baghdad's up in flames again

We're not gonna take it layin' down  
We've been there and back  
And we served our country proud  
We're not gonna stop until they cease  
Cause we are Veterans For Peace

So shout out to your neighbors  
And every lemming runnin' blind  
To hold george bush accountable  
For the sake of humankind  
While he milks your fear with terror  
He leaves a trail of blood behind  
Well he can tap our phones  
He can tap our bank  
But he'll never tap our minds

We're not gonna take it layin' down  
We've been there and back  
And we served our country proud  
We're not gonna stop until they cease  
Cause we are Veterans For Peace

We are Veterans For Peace  
We are Veterans For Peace  
We are Veterans For Peace  
We are Veterans For Peace
